Coral Reef Reforestation Program

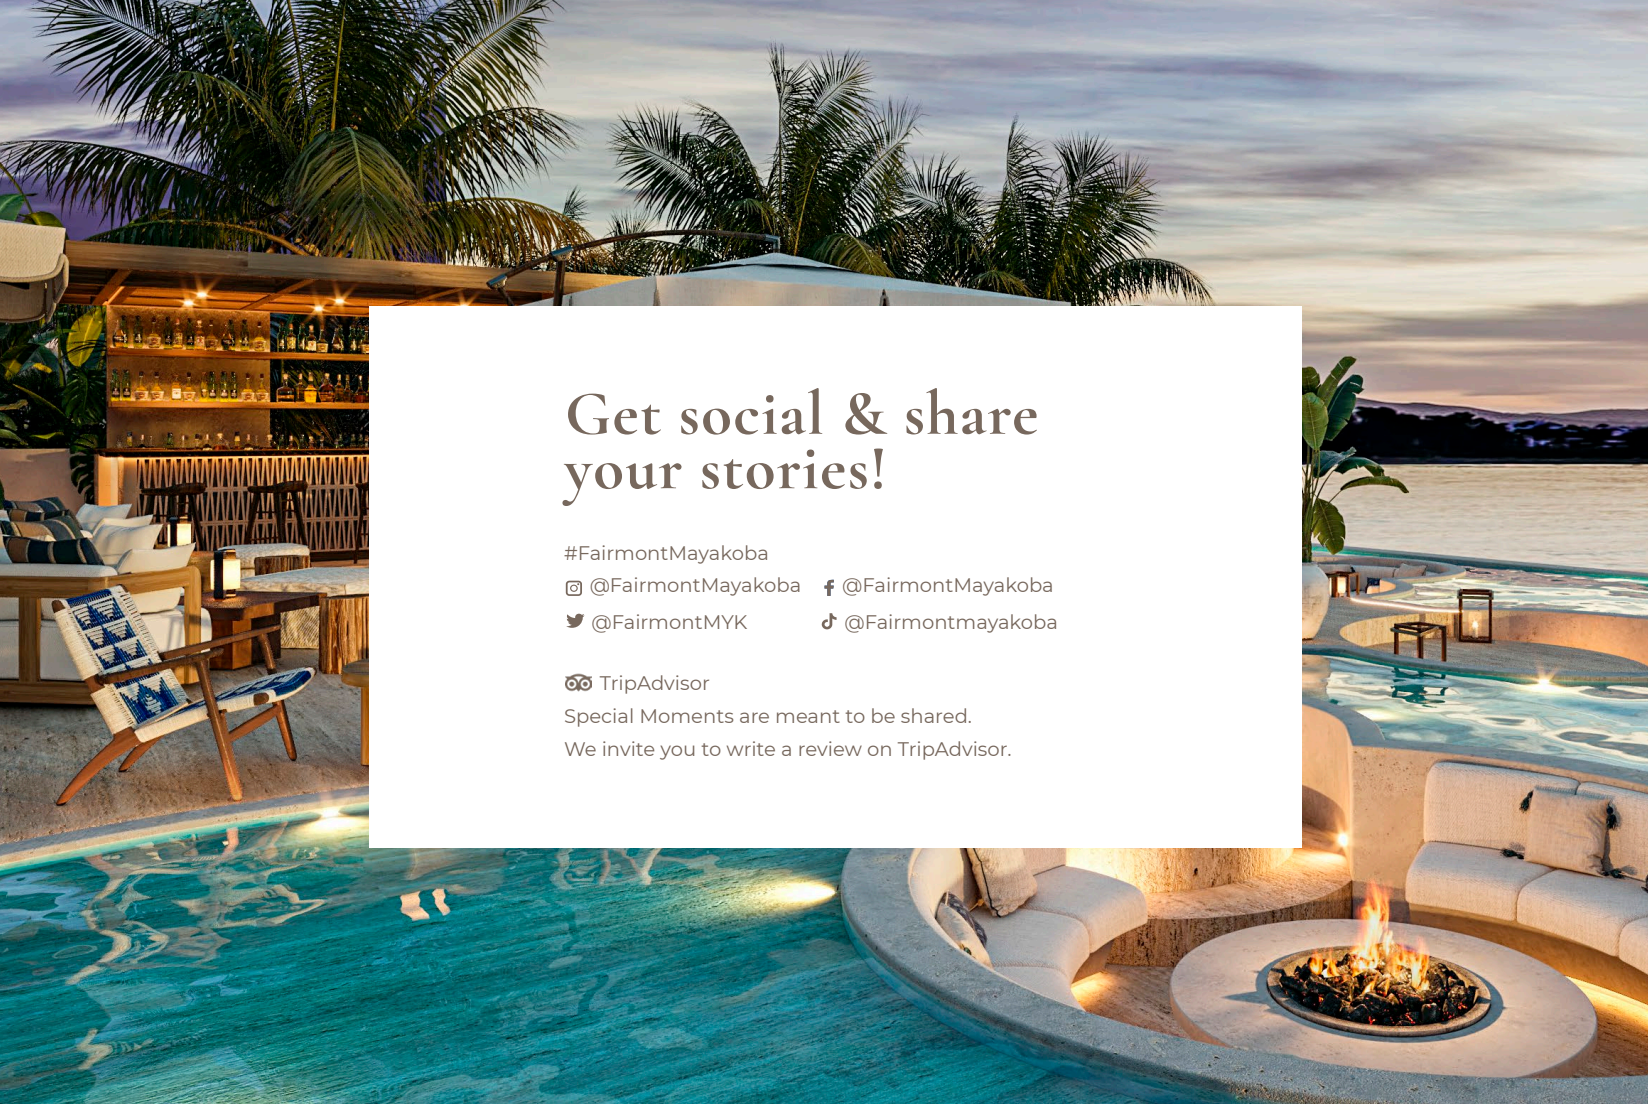

Oceanus A.C. is an organization that generates information and strategies for the conservation of natural resources, promoting citizen participation between institutions and communities. It supports the conservation of marine ecosystems, the importance of protected natural areas and implements restoration projects to develop coastal ecosystems.

As part of our commitment with the ecosystem, we offer an activity in which guests can help to transplant coral colonies and be part of this amazing project!

Includes:

- 1.- Talk in the beach area about coral reforestation
- 2.- One-hour guided catamaran tour to visit the coral plantation
- 3.- Personalized concrete base to subsequently plant the coral
- 4.- Group photo
- 5.- Illustrative explanation brief of the fish they saw on their way to the reef
